Well Known Lady Tells How She Darkened Her Gray Hair by a Simple Home-Made Remedy.

Mrs. E. H. Boots, a well known resident of Buchanan County, Ia., who darkened her gray hair by a simple home-made remedy made the following statement:

"Any lady or gentleman can darken their gray or faded hair, and make it soft and glossy with this simple recipe, which they can mix at home. To half a pint of water add 1 ounce of bay rum, one small box of Barbo Compound and 1/4 ounce of glycerine. These ingredients can be purchased at any drug store at very little cost. Apply to the hair every other day until the gray hair is darkened sufficiently. It does not color the scalp, is not sticky or greasy and does not rub off. It will make a gray haired person look 10 to 20 years younger."

## BISBEE STRIKE INQUIRY COMPLETED BY GOVERNMENT

Leaders Behind Deportation of Copper Miners Face Prosecution by United States.

WASHINGTON, March 22.—Gathering of evidence against citizens of Bisbee, Ariz., who were responsible for the deportation of 1,156 striking copper miners last July 12 has about been completed by the Department of Justice, and a report soon will be made to President Wilson.

Some Department of Justice officials believe Federal statutes were violated in the seizure by the vigilance committee of the Bisbee exchange of the Bell Telephone Company and the attempt to exercise a censorship over interstate

connection of both telephone and telegraph lines, and by the committee's measures to prevent the return of some of the deported workers to their homes where they were registered for the draft.

If it is found that there is insufficient evidence to justify prosecution in Federal Courts, it is probable the Department of Justice's report will be forwarded to Gov. Campbell of Arizona, for any action he may wish to take.

## MANY NOTABLES AT BIER OF THEODORE W. MYERS

Rabbi Mendes, in Performing Last Rites, Lauds Memory of "The Honest Comptroller."

Many notable figures in the political and business life of New York City gathered this morning at the funeral of Theodore W. Myers, held at the home of the family, No. 44 West 77th Street.

The services were conducted by the Rev. Dr. H. P. Mendes, Rabbi of the Shearith Israel - Spanish - Portuguese Synagogue at No. 35 Central Park West. Dr. Mendes said very little about Mr. Myers in a personal way, but indirectly pointed out how the lives of truly good men might be a great stimulus for the betterment of mankind. It was plain that Dr. Mendes was referring to the sterling qualities which caused Mr. Myers to come to be regarded as "The Honest Comptroller" of New York City.

The pall-bearers were: Congressman Jefferson Levy, Arthur Lipper, William B. Anderson, Arthur Levy, Harry Lauchheim, Harry Symons, Joseph Haag, Herbert Geiger, former Justice Samuel Straubourger of the City Court; Jacob Wolff, Harry Williams and J. Bennett. The burial was in Cypress Hill Cemetery and many of the friends and relatives attended.

Counsel Will Leave Fate Entirely in Governor's Hands.

SAN FRANCISCO, March 22.—Application for the pardon of Thomas J. Mooney, is to be filed with Gov. William D. Stephens immediately after the State Supreme Court issues the remittitur on its decision affirming Mooney's conviction and sentence of death in connection with the preparedness day bomb explosion here in July 1916. ## A Never Failing Way to Banish Ugly Hairs

(Aids to Beauty)  
No woman is immune to superfluous growths, and because these are likely to appear at any time, it is advisable to always have some depilatory powder handy to use when the occasion arises. A paste is made with some of the powder and water and spread upon the hairy surface; in about 3 minutes this is carefully removed and the skin washed. You will then find that your skin is entirely free from hair or fuzz. Be sure, however, to get real depilatory.—Advt.

## AUTO OWNERS WARNED.

Held Just as Much Responsible for Speeding as Drivers.

Owners riding in automobiles while their chauffeurs are oversteering are equally guilty, according to Magistrate Houder's twenty-seventh safety bulletin, issued to-day at the Traffic Court, as follows:

"Speeding is increasing. Chauffeurs frequently complain this is occasioned by order of owners.

"Such owners should know that the ordinance includes them as well as the operators.

"The ordinance says an owner who shall cause or permit any violation is as responsible as the operator. This does not mean the owner directly orders the violation, but that he allows it without expressly authorizing it.

"In other words, it means this: That an owner when in his car cannot close his eyes to violations on the part of his operator and escape responsibility under the ordinance."

## T. R. SPURS BOY WORKERS

Praises Farm Reserve Campaign Among School Pupils.

PHILADELPHIA, March 22.—Theodore Roosevelt strongly indorses the campaign to enroll high school boys for farm service. In a telegram to John C. Frazer of the Pennsylvania Committee of Public Safety, he says: "I wish to express my hearty and unreserved support of the boys working reserve to include boys between the ages of sixteen and twenty-one, who ordinarily would not be in productive labor and who can be turned into work-ers on the farms. The farmer has been prompt to recognize that the strong healthy boy is a tremendous help at the farm. One of the great benefits conferred is that of making the boy realize that he is a part of Uncle Sam's team, that he is doing his share in this great war and that he holds his services in trust for the nation."

## Canada to Ban Diamonds and Gold Plate Jewelry.

TORONTO, Can., March 22.—The Canadian Government has decided either to forbid the importing of more diamonds during the war or to so raise the tariff that the business will be reduced to a minimum. ## MAY BE SHIFTED TO RELIEVE EAST

Government Boards Survey West and South With View of Allaying Congestion.

WASHINGTON, March 22.—An extensive survey of the location of war industries now being made by the War Industries Board and several other Government departments, may result shortly in the transfer of many Government contracts from the industrially congested East to the West and South, where factories are working under less pressure, labor is not quite so scarce and railroad transportation conditions are better.

The many ramifications of the subject have recently been discussed, it was learned to-day between representatives of the War Industries Board, Railroad Administration, Treasury, Shipping Board and the Labor Department. A definite policy probably will be announced soon.

Hundreds of contracts placed last summer soon after the United States

entered the war will expire in April and May, and a general redistribution must occur. Scores of manufacturers' representatives in Washington looking for contracts and members of Congress from the Middle West and South are urging a gradual shifting of the industrial burden to their regions.

Bernard Haruch has conferred with a number of officials on the subject since he was appointed chairman of the war industries board and is known to believe that a better distribution of contracts would result in greater industrial efficiency for the country.

The Railroad Administrator's interest grows out of the serious traffic congestion with which it has been confronted from the Pittsburgh manufacturing district eastward. Director General McAdoo has told members of Congress that some of the traffic load must be taken off Eastern carriers both by re-routing of export traffic through Southern ports and by efforts to place contracts with due consideration to the transportation factor.
